↑ *Community insight*

↑ *City monitoring*

# Want to know more?

**Civici** is an independent platform that enriches the relationship between **citizens, organizations** and **officials**.

It provides an **open and secure** communication channel that facilitates **citizen participation** and **open government** while protecting privacy and respecting individual freedoms.

[www.civici.com](http://www.civici.com) | [@civici](https://twitter.com/civici) | [hello@civici.com](mailto:hello@civici.com)

## PRIVATE

Data encryption maintains the secrecy of identities during consultations.

## PROTECTED

Immutable logs guard processes from internal and external security threats.

## VERIFIABLE

Unique codes and identifiers verify votes were accurately recorded and counted as intended.

## AUDITED

The most secure voting technology in the world certified by 18 countries.
